

Teamwork Fundamentals

Step into your Strengths!

Teamwork Fundamentals is a highly interactive and practical experience that allows team members to step into their strengths and truly understand their team members. This experiential program will revolutionize the way your team members respond to others and work at resolving differences.

In addition to spending a fun and engaging afternoon with your team, this program provides a highly practical & relevant approach to help:

- ❑ Allow team members the opportunity to experience effective communication, collaboration, leadership & strategic thinking
- ❑ Provide insight into how the team currently approaches tasks, works through problems and reacts to challenges and how this process can be improved back in the workplace
- ❑ Increase awareness around your personal strengths and areas for improvement
- ❑ Build confidence and ability in yourself as an individual, a leader and a team player

Participants will participate in a variety of activities at a venue of choice.

"I can honestly say, as a facilitator myself and having been in many team & leadership programs, NexLevel Challenge is one of the best experiences I have had!"

The experience covered mindfulness, challenging assumptions, creative thinking, deepening relationships, pushing to new highs and much more.

I learned a lot about myself and took copious mental notes to become a better facilitator in my own practice!"

~ Jenn Lofgren, Leadership Coach, Incito Consulting
